

# The United Prayer Tower Advantage

The United Prayer Tower is more than a clearing house for your prayer needs. It is a living entity made up of people of prayer who meet each week via phone, in harmony and in faith believing, with Jesus in our midst, according to Matthew 18:20

*“For wherever two or three people have come together in my name, I am there, right among them!” (Phillips)*

We come to Jesus for you. We talk to Him about you. We stand in the gap for you. Ezekiel 22:30.

We are here for when you need more than just putting your name and your need on a list.

# Come Along Side Prayers

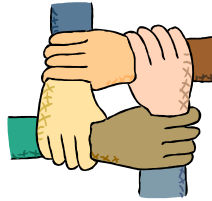

Making the most of your United Prayer Tower experience.

## Imagine that

you are trying to lift and move an object that is too big for you. You strain but it just won't budge. Just when you're ready to give up a friend comes along beside you and says, "Let me give you a hand." Working together in harmony you are able to lift and move the object. What you couldn't do alone two or more working harmoniously together can do.

## Suppose that, instead of coming

along beside you, your friend calls you from a distance and says, "Let me help you. I will concentrate on you moving that object, projecting my energy into you."

That would be silly, and would not help at all. And yet, that is how we often pray! We send our requests out thinking that the more people we can get concentrating on our moving the object the easier it will be to move the object.

## How can I say that?

Because Jesus said it, although in a different way. He said where two or three are harmonized together in His name He will be in their midst. A thousand people, each praying in his own way, following his own ideas about how to pray for you and your need, is not what is meant by being together and harmonizing together. There is no harmony in disconnectedness. A's prayer might end up cancelling out B's prayer. None may actually be praying in faith believing, but only out of sympathy for your need.

## Rule #1:

There are two rules you need to observe when you seek prayer from others. First, your prayer request needs to be broken down into **bite sized pieces**. Your ultimate goal may be complete healing of a physical condition, or of a relational condition. Those are your hopes. But you, and those praying for you, may not have unwavering

faith (James 1:6) for that sized goal. Hope is not the same as unwavering faith. Narrow your request to the most important part of the need, the smallest thing you can believe for, so that you can move from hope, to faith, nothing wavering. Develop your faith in believing for a pair of socks before you start believing for a new suit.

## Rule #2:

**enable harmonizing**. Harmony comes when everyone is at the same place in the same music, regardless of their instrument, or the notes that are theirs to play. In an orchestra all the players are guided by hearing each other. In contrast, when a host of individuals pray alone the presence of each other that enables harmony is missed. But if we intentionally harmonize by the way we word our prayer request, Jesus can then direct our praying. When there is harmony of intent and request and faith it is like a thousand

hands reaching up and funneling down God's power into the one in need. Be very specific in your prayer requests.
